PLAN PREPARE PROFIT

PLAN FOR TODAY

Before you do anything, Just Breathe. Allow yourself to let things settle.

It really doesn't matter where you feel you are, it's just a feeling. The most important thing is you are now ready to move forward into a new period, a new mindset and it's time to get ready to PLAN for the future.

I don't like to reflect on what I might or might not have achieved but I do think it is wise to look at what you tried and didn't work, that way you won't repeat the same mistakes.

PLAN

If you will follow your heart you can't go wrong. It's when you are living your life from your head that the mistakes happen. You are out of touch with your soul and disconnected from Source.

Let's look at what you need to do to

PLAN

It's time to create your VISION for what you want to happen.

The best way I know and what all successful business owners do is work from the end backwards.

When you have a vision then you can see the steps leading to that vision and it makes it so much more easy for you to then PLAN.

Write out in your Daily/Weekly/Monthly Planners what you want to happen in the first three months of the year.

Write up in your Planners your Personal and Business Goals

Write up what you will do to achieve them

Write up the action you will take

PREPARE

PREPARE TO RECEIVE

No matter what things look like, keep going and always keep your vision in sight.

Know your goals and do something every day that will take you closer to them.

Take 10-15 mins. each day to sit quietly and close your eyes.
See yourself living your life with your goal already in it.
Feel it, sense it, know it to be true.

Do everything you have to do to make it happen.
Don't stop till you achieve your goal.

Ever day think about your goal and feel it as though it's already in your life.

How good does it feel?

Affirmation to yourself about your goal.

Example Affirmation -
Every day in every way I am attracting to me my goal,
and so it is done.

PROFIT

PROFIT FROM YOUR ACTIONS

Your goals will bring you wealth, great health, happiness, success as you profit from knowing that all is well.

Everything really is OK but you must believe it.

When you hear stories of people manifesting things so quickly, in a very short time, it sounds amazing but they might have been visualising and taking action over a six month period. Everything will come to fruition in exactly the right moment, but what you can do is plan and prepare to receive profit in our business.

From serving with soul you are serving from the highest place. You will attract all that you desire. If you will take action and write up your goals, do what you have to do to make it happen, take aligned action and you will manifest profit.
